Subject:	ICT (Information Technology)

Summary:

Microsoft PowerPoint is an effective and engaging tool for communication, visualisation and graphic representation, allowing students to be active producers rather than passive consumers of multimedia. PowerPoint allows students to tap into creativity and skills beyond the traditional approach to projects. PowerPoint Magic offers you everything you need to incorporate this flexible and powerful software into your classroom: an introduction to its basic functions and capabilities; step-by-step activity descriptions keyed to NETS•S standards and subject areas; and teaching tips and extension ideas for promoting higher order thinking. Includes a CD with a complete set of modifiable lesson templates and samples.
