Format:	180x250mm, 310 pages
Age Range:	Professional Development
Category:	Special Needs / Curriculum
Subject:	Special Education

Key Selling Points:

- A humorous and light hearted approach to keep the reader entertained while learning.
- Practical hints and tips to help educators meet the need of every student.

Summary:

Assistive technology (AT) is a serious topic - providing students with special needs tools and strategies to aid in their learning - but reading about it doesn't have to be boring! In *The Practical Guide to Assistive Technology in Public Schools*, authors Christopher R. Bugaj and Sally Norton-Darr keep readers thoroughly engaged while providing a variety of tips, strategies and insights that will help improve your school's Assistive Technology program. From setting up a stellar team to consultations and evaluations, and from implementation to assessing success, this guide presents detailed advice and practical ideas to help public schools meet the needs of every student.

Educators new to AT will find the step-by-step layout helpful in building an AT team and procedures, while seasoned AT professionals will find value in the fresh ideas on reducing paperwork, expanding an AT team and strategies for considering AT for all students.
