

Web 2.0 How-To for Educators

Authors: Lynne Schrum & Gwen Solomon

Date Available: 21 October 2010
ISBN: 978174239 7900
Code: IST7900
RRP: \$50.95
Format: 180x255, 298 pages
Year Level: P-12
Category: ICT Resources
Subject: Web

Summary:

Web 2.0 How-To for Educators explores the very best online collaborative tools available today (including blogs, wikis, and social networking) and Web 2.0 applications (Skype, Google Earth, Wordle, and more) that make a difference in education. Using a simple formula for each concept, the book describes what the tool is, when teachers should use it, why it is useful, who is using it, how you can use the tool, and where you can find additional resources. Practical examples from educators around the world offer an abundance of ideas, and the recommendations for further information and comprehensive lists of Web 2.0 tools and applications will be valuable resources as you integrate Web 2.0 technology in your classroom.
