Summary

Today's students need broad skills to help them think creatively, work collaboratively and implement innovations in our complex and global society. These skills must be taught early to ensure success.

In *Nurturing Young Innovators*, preschool–Year 5 teachers will learn how to engage families and communities in activities that create environments where creativity, innovation and collaboration are fostered and valued, and where technology is used to redefine learning and promote responsible risk-taking.

Written by two education experts who are passionate about supporting early learners through effective uses of technology, this book is a singular source for learning how to encourage innovation and creativity in early learners so they can develop the skills they need to thrive.

This book includes:

- examples of how teachers can collaborate with students, parents and community to support student success and innovation
- practical tools, including sample projects, reflection questions and exercises to drive student learning
- an action plan to help you track the steps you're taking to facilitate creativity in students
- a resources section to support the content in each chapter.
