

Innovation Age Learning: Empowering Students by Empowering Teachers

Author(s): Sharon Sakai-Miller

Date Available: June 2017
ISBN: 978 1 76001 985 3
Code/SKU: IST9853
RRP: \$35.95
Format/Page No.: B5, 192 pages
Year Level: Teachers and Administrators
Focus Area: Leadership, Professional Development
Key Learning Area: Cross-Curricular, Technologies

Summary

Ready or not, education has entered the Innovation Age, where it's not about what students know but what they can do with what they know. To be truly engaged, students need to go beyond content, skills and relevance. They need to feel empowered to make a difference with their listening.

In *Innovation Age Learning*, author Sharon "Sam" Sakai-Miller shares her vision for active, constructivist-based learning, infused with innovation skills, which leads to proven student success. Offering practical ideas organised by essential skills, including collaboration, communication, creativity and critical thinking, the book encourages educators to intentionally design learning environments that:

- foster collaboration in class, beyond class and beyond school
- promote self expression, interactive communication and three-dimensional communication through words, data and graphics
- encourage creativity by building creative confidence, and associational thinking and empathetic thinking skills
- boost critical-thinking skills by supporting the iterative learning process and building questioning and experimentation skills.
