Summary:

In this book, master teacher, trainer and celebrated maths author Becky Bride will show you step-by-step, activity-by-activity and lesson-by-lesson how she used cooperative learning structures to help her students succeed with algebra year after year. When the power of student-to-student interaction is unleashed in algebra, students enjoy learning more and the abstract algebraic concepts become more concrete and understandable. Chapters cover: working with rational numbers, expressions, equations and inequalities, linear functions and vertical lines, linear systems, polynomials, radicals and quadratic functions. Book includes activities.
