

Match Mine Mathematics

Author: Miguel Kagan

Date Available: 11 December 2009
ISBN: 978 1 74170 563 8
Code: KA5638
RRP: \$27.95
Format: A4
Age Range: Years three to six
Category: Maths
Subject: Maths games

Summary:

There's no better way to get your students talking about and using the language of mathematics than using these communication-building Match Mine games. Partners sit on opposite sides of a barrier. They each receive the same game board and game pieces copied from the book. One student organises her pieces on the game board. Then, with words alone, she must describe her arrangement to her partner so her partner can make a match. Students learn and use mathematics vocabulary and concepts as they play. Includes 30 games spanning 7 strands of mathematics. Students will ask to play again and again.
