## Key Selling Points:

### Summary:

It's easy to make mathematics cooperative and engaging with this book! Inside, you will find 7 highly interactive Kagan Structures and nearly 50 ready-to-use activities that fit the state and territory standards. For example, your students will play Fan-N-Pick to identify mathematical properties. Students will mingle with classmates as they Find Someone Who can solve an area problem. Pairs will Quiz-Quiz-Trade each other as they name patterns. Teams will play Showdown to compare whole numbers, decimals and fractions. This book will save you so much time preparing cooperative maths activities to engage everyone in your class!
