### Key Selling Points:

- Ready to use engaging projects for your classroom
- Use the same posters multiple times with different experiments or areas of interest
- Create a fantastic visual display in your learning centre

### Summary:

Create maximum engagement with minimal preparation and supervision. Students have fun and deepen their understanding of the curriculum as they create poster masterpieces. Your students will use their thinking and creativity skills as they complete these mini-projects. Make science study a fun, hands-on project. Students create poster masterpieces on various science topics. Posters create excitement and require little direction and supervision. Each student poster includes numerous highly-motivating activities. Poster Projects are great for team projects, independent activities, sponge activities and learning centres. Each set includes 32 of the same, A3-sized poster pages.
