Key Selling Points:

- Ready-to-use engaging activities for your classroom
- Designed to generate higher level thinking processes through application, analysis, synthesis and evaluation
- Promote cooperative learning and teambuilding with these fun prompts

Summary:

Your students just finish a new experiment, are ready to start writing up results, are studying the environment, or are about to explore a new science topic. Each team pulls out their own set of Question Cards and works to ask and answer questions guaranteed to get them thinking critically and creatively about the content! You and your students will love using these popular open-ended higher level thinking question cards. Each classroom set has 16 colourful double-sided question cards for each team in your class. Includes full instructions and lots of great ideas for use. The Kagan Question Cards: Science Set includes one set each of the following: Endangered Species, Investigating Invention, and Solar System. Kagan Question Cards are also available for English, Social Studies and the Arts.
