

EDThoughts

John Sutton and Alice Krueger (Eds)

Date Available:	JJune 2009
ISBN:	978 1 74170 043 5
Code:	MC0434
RRP:	35.95
Format:	A4, 120 pages
Age Range:	P-12
Category:	Professional Development
Subject:	Mathematics

Summary:

Mathematics is critical to the education of all students. *EdThoughts* brings to Prep-12 educators the rich world of educational research and best practices, summarising educational research and surveys of best classroom practices. *EdThoughts* asks pertinent questions, addressed through both a page of Research and Best Practice and a page of Classroom Implications, in: Mathematics for all; Teaching mathematics; Assessment in mathematics; Mathematics curriculum; Instructional technology in mathematics; and Learning mathematics. As we move forward in reform of mathematics education, we must apply lessons learned from research and best practices. These will guide us towards the improvement of our students' achievement – a goal we cannot afford to ignore.
