Code: WAL7694
RRP: \$38.95
Format: A4, 232 pages
Year Level: Professional Development
Category: Classroom Management
Subject: Management

Summary:

A Healthy Classroom is designed to help teachers understand the single hardest management situation they will face in the classroom, namely when they are called upon to grapple with both the individual and the class at the same time.

While teaching the entire class the teacher often has to quickly assess what to do with an individual student who is inappropriate. Just as troublesome is the situation when the teacher is reprimanding an individual student and the whole class is watching.

A Healthy Classroom tackles these group dynamic situations with insight and practical axioms, utilising Michael Grinder's unique, holistic approach to group dynamics to accelerate the formation of thriving communities and alleviate common disciplinary and other class problems.
