Summary:

Cut and Paste Alphabet is a collection of hands-on activities for preschool to Grade 1 students. A monkey, an alligator, and a host of other animals help the children learn to recognise, name, trace, and write the letters of the alphabet. The activities provide practice in following directions and help children develop their fine motor skills through colouring, cutting, pasting and writing.

Children only need crayons, pencils, scissors, and paste to complete the activities. Use the children's completed work for colourful classroom displays, mounting the pages or cut-outs on construction paper or fadeless art paper.

Key selling points:

- Provides fun and interactive ways for very young children to learn the alphabet.
- Includes culminating activities that result in take-home keepsakes.
- Offers ideas for using completed work as classroom decoration.
