

The New Taxonomy of Educational Objectives, Second Edition

Author(s): Robert J. Marzano & John S. Kendall

Date Available: August 2017
ISBN: 978 1 74170 239 2
Code/SKU: MRL2399
RRP: \$59.95
Format/Page No.: B5, 202 pages
Year Level: Teachers and Administrators
Focus Area: Curriculum
Key Learning Area: Cross-Curricular

Summary

A thoroughly updated guide to the nature of knowledge!

Marzano's Taxonomy – the more current and comprehensive guide in 50 years to define the new standard for education – is a must-have resource for all directors of curriculum and instruction, directors of staff development, principals and teachers. Developed by Robert J. Marzano and John S. Kendall, internationally recognised experts in the development and improvement of standards for education, this field-tested and proven reference contains the most current research on the nature of knowledge and cognition and a reflection of the movement to standards-based education. Based on three domains of knowledge: information, mental procedures and psychomotor procedures; and six levels of processing: retrieval, comprehension, analysis, knowledge utilisation, metacognitive system and self-system, this essential guide offers specific applications for

- designing and classifying educational objectives
- creating assessments
- redesigning learning standards
- formulating curriculum
- outlining a thinking-skills curriculum.
