Summary:

Whether you are looking for stand-alone workshops, a series of practical sessions or would like to run your own Super Learning Day, this book has everything you need to make learning to learn really rewarding.

Full of fun activities this book uses research based on what we know about the brain and learning and applies it to the primary age group. The easy-to-run workshops have been thoroughly tried and tested in schools and communities, so you can set out on your voyage of discovery safe in the knowledge that these ideas really make a difference.

Key selling points:

- Shows children how we learn in different ways, helping them to understand and develop their potential
- Teaches children the skills necessary for remembering and transferring learning
- Provides positive, challenging activities that encourage enjoyment and confidence in learning
- Sets out practical workshops and all the materials you need for building lessons that are meaningful and memorable.
