Summary:

St John's School and Community College in the UK made headline news this year. In challenging old ideas about homework and a national curriculum, St. John's has developed its own integrated curriculum. Their radical new curriculum is designed to equip learners with the skills and knowledge they need to thrive in the real world. Nurturing Independent Thinkers is both a practical guide to the implementation of the 'St John's curriculum' and a realistic account of the journey taken by the staff and students involved.
