Summary:

This book looks at the separate “pieces” of the learning puzzle and puts them together to create the bigger picture. Diana Pardoe draws upon extensive classroom experience and research to provide an array of practical strategies that will deepen students’ and teachers’ understanding of the key principles of learning through shared student–teacher conversations using a common language and the active involvement of the learner.

Key selling points:

- Provides easy to use case study material
- Draws upon classroom experience and action research
- Builds awareness of teachers to the importance of active involvement in raising achievement in the learner
- Provides interesting and simple examples and diagrams to illustrate the theory
