

Inclusion Succeeds With Effective Supervision (Years 6–12) (Set of 10)

Author(s): Toby Karten

Date 18 June 2014
Available:
ISBN: NPR8953
Code/SKU: NPR8953
RRP: \$90.00
Format/Page No A4
Age Group: 6–12, Professional Development
Topic: Gifted & Support, Leadership
Learning Area: Cross-curricular

Summary:

It is often stated that students will remember how you treat them long after they forget what you taught them. While some students may be different, it is important to recognise them as an individual, and not as their disability. There is nothing to indicate that any student with a disability is not capable of achieving great success.

Designed to assist general education (GE) and special education (SE) teachers implement successful inclusive practices, this reference guide provides effective strategies that focus on students' abilities and strengths, as well as ways to foster collaborative co-teaching. The strategies introduced in this resource are tailored to helping adolescents process and retain information, addressing their learning methods and environments. This resource includes information on understanding inclusion and understanding co-teaching, inclusion strategies, a Disability Awareness Rubric, lesson ideas, web resources and more.

This set of 10 glossy, A4, full-colour resource is the perfect tool for educators looking for ways to improve their co-teaching as well as create a more inclusive classroom.
