

RTI & DI: Response to Intervention & Differentiated Instruction (Set of 10)

Author(s): Karen Kemp

Date 19 June 2014
Available:
ISBN: NPR8970
Code/SKU: NPR8970
RRP: \$90.00
Format/Page No A4
Age Group: Professional
Development
Topic: Differentiated
Instruction, Leadership
Learning Area: Cross-curricular

Summary:

Designed for educators who are committed to optimising an effective teaching–learning environment, this reference guide presents an overview of the essential components of Response to Intervention (RTI) and Differentiated Instruction (DI). Strategies to integrate RTI & DI are provided for classroom teachers who are responsible to facilitate instruction, as well as for learners who need to be actively engaged in their own learning.

All students can learn when high quality instruction is matched to their individual needs and learning styles. The reality – no longer an assumption – is that our classrooms are heterogeneous. With diversity based upon race, ethnicity, socio-economics, language, environment and learning styles, teachers must use the best practices of DI within the framework of RTI. These practices ensure that all students, from those who struggle with very basic skills to those who need enrichment to challenge them, will succeed.

This set of 10 glossy, A4, full-colour resources is the perfect tool for educators seeking to improve the practices of RTI & DI in their classroom.
