Summary

Transitions are a natural part of life. People are always moving from one place or one activity to another. Most young children need help making this journey! This practical guide will help early childhood staff make transitions fun and instructive by using them as “mini-teachings” for building language, literacy, maths, creative thinking and problem- solving skills.

This practical guide is designed to help the early childhood teacher find the fun and learning in transitions by using them as mini-teachings for building language, literacy, math, creative thinking and problem solving skills. Includes:

- Understanding developmental considerations in choosing appropriate transition activities
- Using transitions to manage behaviour
- Communicating with families—suggestions for using transitions at home

This set contains 10 copies of the *Study & Test Preparation: A Teacher’s Guide* reference card.
