

RTI (Response to Intervention) for Middle Years Students (Set of 10)

Author(s): Joseph Casbarro

Date 13 October 2015
Available:
ISBN: NPR9226
Code/SKU: NPR9226
RRP: \$90.00
Format/Page No A4
Year Level: 5–9
Focus Area: Differentiated Learning
Key Learning Area: Cross-Curricular

Summary

Response to Intervention (RTI) has become one of the fastest growing and most successful problem-solving procedures used in our nation's schools. Designed to address the needs of struggling learners, RTI has been primarily embraced and implemented in primary school settings. However, an increasing number of middle years educators are beginning to explore RTI as a major initiative to meet the needs of their at-risk students. Since the structure of the middle years is vastly different from that of primary schools, there are a number of unique challenges that must be addressed in order to successfully implement RTI. This reference guide is designed to explore those challenges and provide middle years educators with a basic overview of RTI and its multi-tiered model of interventions.

Most available RTI materials are written for elementary schools where RTI has flourished. However, more and more middle schools are exploring the use of RTI to address the needs of their struggling learners. This laminated reference guide provides essential information on RTI and how to implement this process in middle school environments. Topics include: the multi-tiered model, grade level teams and RTI, establishing RTI middle school teams, the role of guidance, universal screening and the types of assessment.

This set contains 10 copies of the *RTI (Response to Intervention) for Middle Years Students* reference card.
