

# Uncovering Student Ideas in Science, Volume 2: 25 More Formative Assessment Probes

Author(s): Page Keeley, Francis Eberle and Joyce Tugel

<b>Date Available:</b>	June 2017
<b>ISBN:</b>	978 1 76056 067 6
<b>Code/SKU:</b>	NST0676
<b>RRP:</b>	\$49.95
<b>Format/Page No.:</b>	A4, 190 pages
<b>Year Level:</b>	Teachers and Administrators, F–12
<b>Focus Area:</b>	Professional Development, Activities and Exercises, Assessment, Curriculum
<b>Key Learning Area:</b>	Science

## Summary

The popular features from Volume 1 are all here. The field-tested probes are short, easy to administer, and ready to reproduce. Teacher materials explain science content and suggest grade-appropriate ways to present information. But Volume 2 covers more life science and Earth and space science probes. New topics include forms of matter, changes in matter, living things and life processes, rocks and landforms, the day/night cycle, and objects in the night sky. Volume 2 also suggests ways to embed the probes throughout your instruction, not just when starting a new unit or topic.

This new classroom tool will help you not only uncover students' existing ideas, but also use that knowledge to improve your teaching and advance student understanding of science concepts.
