Author(s): Emily Morgan

Date Available: 3 June 2016
ISBN: 978 1 74239 612 5
Code/SKU: NST6125
RRP: \$19.95
Format/Page No.: A4, 32 pages
Year Level: F-6
Focus Area: Activities and Exercises
Key Learning Area: Science, English

Summary

It's fun to throw maple seeds up in the air and watch them spin down to the ground like nature's own helicopters.

This book prompts inquisitive children to learn about these marvels of aerial engineering, including their real name (no, not *whirlybird* or *spinning jennies*), the work they do for maple trees and how to uncover the little trees waiting to sprout from the seeds.

Next Time You See a Maple Seed is a mini class in how tall trees grow from these tiny, twirling winged fruits.

Awaken a sense of wonder in a child with the *Next Time You See* series. The books will inspire primary-age children to experience the enchantment of everyday phenomena, such as maple seeds, Moon phases, slaters, fireflies, seashells and sunsets.
