

# Force & Motion: Stop Faking It!

Finally Understanding Science So You Can Teach It

Author(s): William C. Robertson

**Date Available:** 7 February 2016  
**ISBN:** 978 1 76001 744 6  
**Code/SKU:** NST7446  
**RRP:** \$29.95  
**Format/Page No.:** B5, 102 pages  
**Year Level:** Teachers and Administrators  
**Focus Area:** Classroom Practice and Direct Instruction, Professional Development  
**Key Learning Area:** Science

## Summary

Intimidated by inertia? Frightened by forces? Mystified by Newton's Three Laws of Motion? You're not alone – and help is at hand.

The *Stop Faking It!* series is perfect for science teachers, home-schoolers, parents wanting to help with homework, all of you who need a jargon-free way to learn the background for teaching middle years physical science with confidence.

With Bill Robertson as your friendly, able – but somewhat irreverent – guide, you will discover you CAN come to grips with the basics of force and motion. Combining easy-to-understand explanations with activities using commonly found equipment, this book will lead you through Newton's laws to the physicals of space travel. The book is as entertaining as it is informative.

Best of all, the author understands the needs of adults who want concrete examples, hands-on activities, clear language, diagrams – and, yes, a certain amount of empathy.
