Summary

Young naturalists will gain both information and inspiration from this book about a very special butterfly garden. *Mrs Carter's Butterfly Garden* is the story of how former First Lady of the United States Rosalynn Carter created a sunny spot in her garden to attract monarch butterflies and help prevent habitat loss. Author Steve Rich worked with Mrs Carter to create a butterfly-friendly trail through her hometown of Plains, Georgia in the United States of America.

Children can learn from Mrs Carter's example about why it is good to have welcoming spaces for butterflies to flutter by – and how they, as young butterfly enthusiasts, can create a butterfly garden on their own at home or school.

Mrs Carter's Butterfly Garden includes helpful resources for teachers and parents who want to introduce children to beautiful butterflies.
