<b>Focus Area:</b>	Professional Development
<b>Key Learning Area:</b>	Cross-Curricular
<b>Supplemental Resource:</b>	Download reproducible resources at <a href="http://go.hbe.com.au">go.hbe.com.au</a>

## Summary

In *The Handbook for the New Art and Science of Teaching*, Robert J. Marzano provides a comprehensive guide to the framework for a substantive change he introduces in *The New Art and Science of Teaching*. This straightforward guide helps F–12 teachers become familiar with the structure of *The New Art and Science of Teaching* framework and provides a wealth of tips and actionable steps to master implementation. In his framework, Marzano identifies ten design areas within three categories of teaching – (1) feedback, (2) content and (3) context – that form a road map for teachers’ lesson and unit planning.

In each chapter of this handbook, Marzano offers specific instructional guidance and suggestions for using every one of the 330-plus strategies from his framework; it sets teachers up for success by providing a strong starting point from which to let their artistic instincts thrive.

Readers will:

- Thoroughly examine *The New Art and Science of Teaching* framework
- Discover many examples that illustrate specific instructional strategies
- Reimagine ways to improve the classroom environment, develop relationships and increase student engagement
- Benefit from over one hundred reproducibles to help them implement *The New Art and Science of Teaching* framework along with many more online tools
- Use self-reflection tools to ensure effective implementation
