GOALS

This Handbook has been developed with several specific goals in mind:

1. To help you improve your skills as an instructional planner.
2. To assist you in planning and organizing *individualized* learning in your classroom.
3. To provide you with useful methods and techniques for developing *thinking skills* among your students.
4. To assist you in developing *objectives, learning activities, and evaluation procedures* that are well-coordinated and designed to improve student learning.
5. To guide you in *designing curriculum* and planning for *scope and sequence*.
