# Christmas Holidays in Other Lands

Every country enjoys special holidays. Some places celebrate special events that show the development of the country; others celebrate the same holidays that we do, but in different ways.

What are some Christmas holiday customs that are followed in other countries but not in Australia? What are some Christmas customs that are celebrated throughout the world in different ways? Choose one country that you would like to investigate. Find several sources of information that tell about that country's celebration of Christmas. Write down the book titles, authors and pages for a bibliography. (Only one source may be an encyclopedia.)
