Introduction

Children learn to identify and associate alphabet pictures and beginning sounds. The games featured in *FolderGames for Early Reading* offer plenty of beginning sound identification and matching skills practice.

Assemble games: *Crayon Caps*, *Letter Bunnies in Basket*, *Owl Letter Lotto*, and more for little ones to identify and match alphabet pictures and beginning sound letters.

Every game includes ready-to-color, cut out, and assemble game boards; game cards; a cover; and a storage pocket or label. Players follow directions to complete tasks and develop hand-eye coordination as they play these unique, early reading games.

General Directions

Use sturdy colored file folders to make FolderGames. Reproduce the game board patterns, cover, and any game pieces. Color all parts with markers, colored pencils, or crayons, then trim and cut out. Glue the game board patterns to the inside of the folder and the cover to the front of the folder.

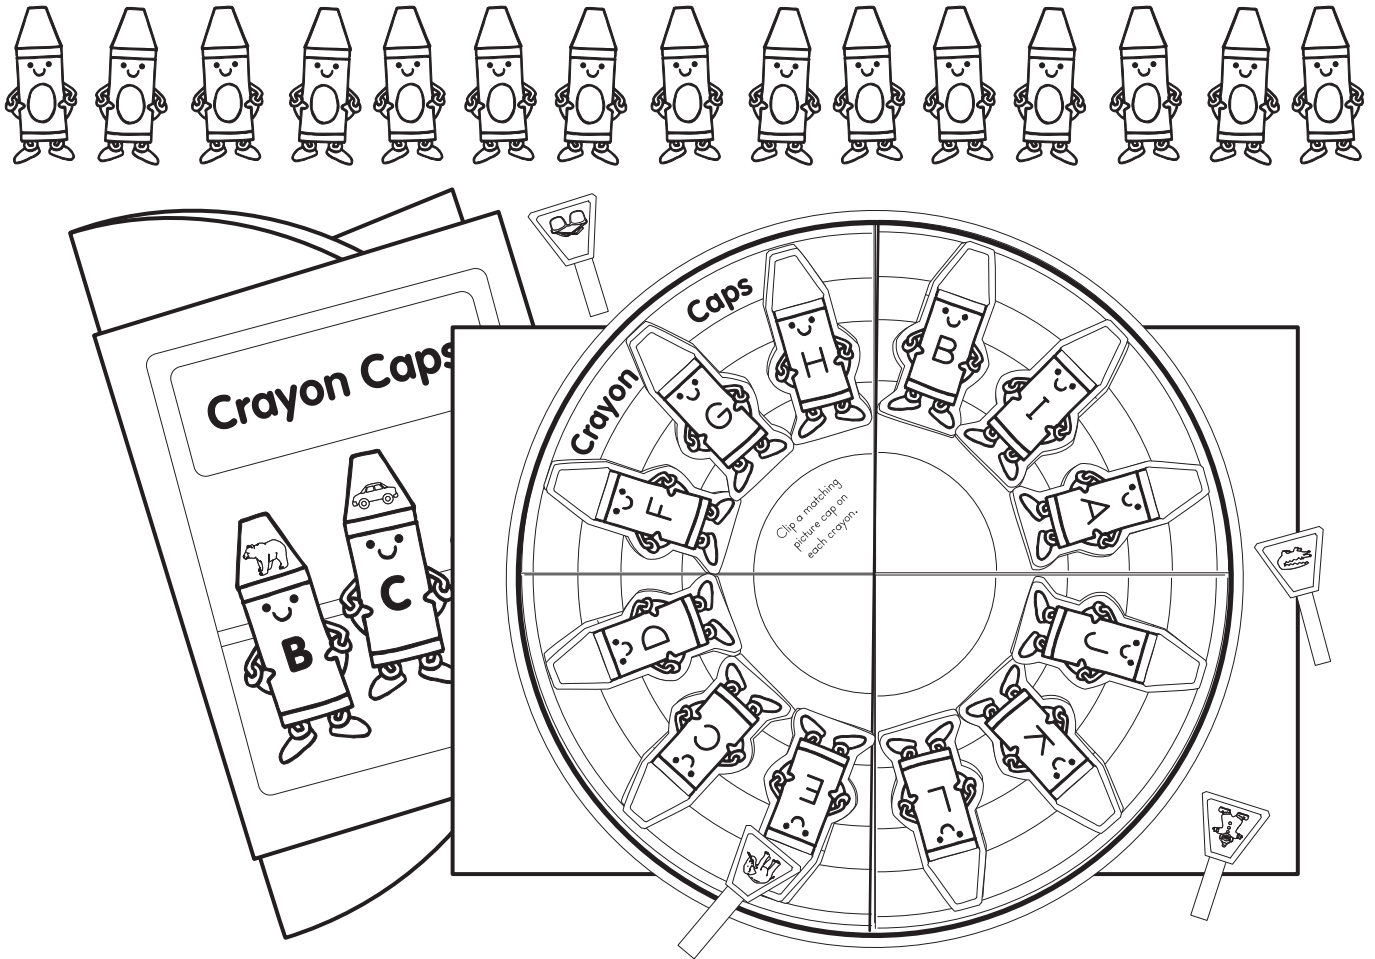

Options

- Glue any loose patterns or game cards on oak tag for extra-sturdiness. Color and laminate. Cut out or trim as necessary to complete assembly.
- Color, cut out, and glue storage pockets on manila envelopes with clasps or to the backs of folders to store game pieces.
- Each set of game cards can be used as flash cards; to decorate storage containers, displays, and greeting cards; as well as for a game of Concentration.

How To Use

Have the children take out any game pieces from the storage pocket and open the FolderGame on a table. Instruct children on how to play each game. Have the children return game pieces to the storage pocket after play. Store the FolderGames in a file box or basket.

Crayon Caps

Make several *Crayon Caps* game boards for children to practice matching alphabet picture caps to beginning sound letter crayons.

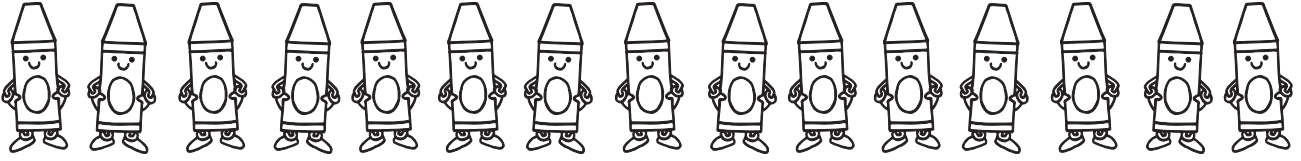

For 2 to 4 Players

1. Place the game board on the table.
2. Place the game cards face down on the table.
3. Draw and identify a game card. If there is a match, clip it on a matching crayon. If there is no match, place the game card face down on the table.
4. Play continues until a matching game card is clipped on each crayon.

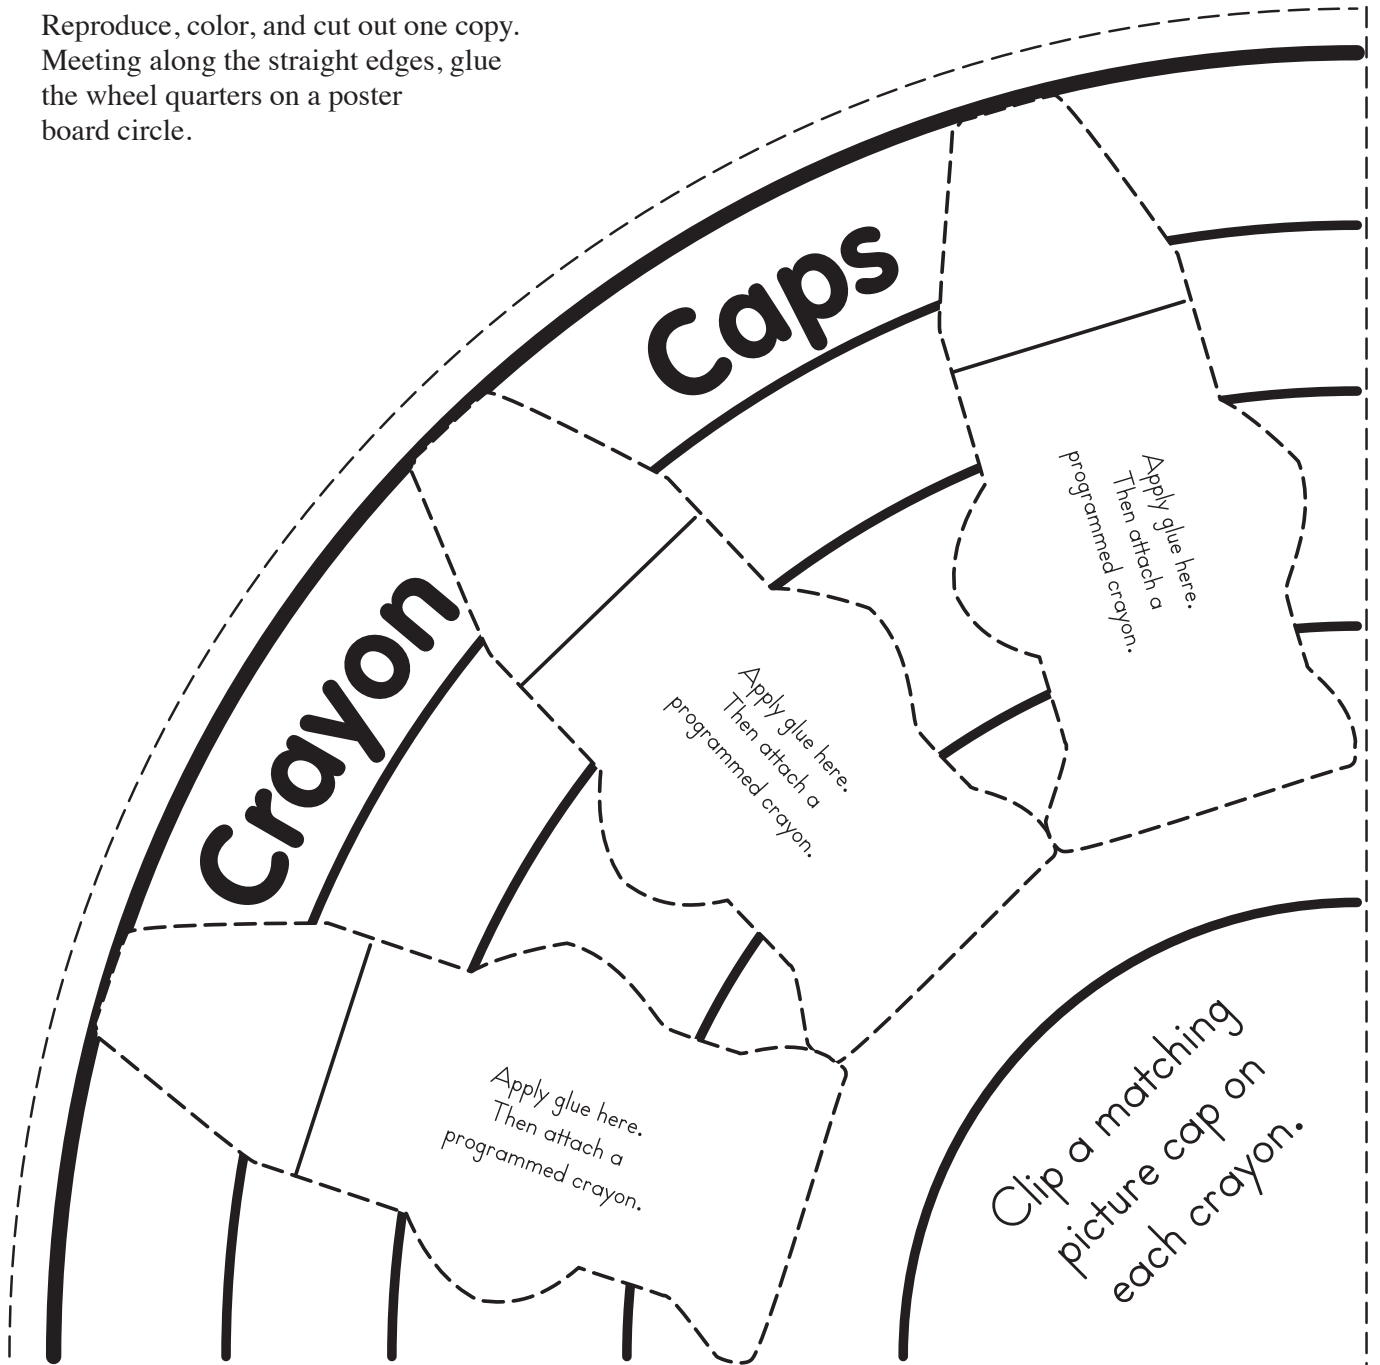

Assembly

Reproduce, cut out, and glue a set of oak tag handles (p. 2) to a folder. Reproduce, color, and cut out the *Crayon Caps* patterns. Glue the cover to the front of the folder. Glue the cap game cards on clothespins. Use a manila envelope to store game cards. Glue three letter crayons on each wheel quarter. Meeting along the straight edges, glue the wheel quarters on a 15" poster board circle. Glue the wheel inside the folder.

Crayon Caps Game Board

Reproduce, color, and cut out one copy.
Meeting along the straight edges, glue
the wheel quarters on a poster
board circle.
