

Chapter 1

After Lizard's success at 'shooting the gap' (riding his board between the twin rocks in the 'rock garden') several other surfers used Hayden and Kaylee's boards to shoot the gap too. Most weeks some new rider tried it.

Hayden and Kaylee worked hard. Kaylee had to design and make the new 'I Shot the Gap and Survived' sweat shirts and hats.

Hayden made new 'Shoot the Gap' boards for the orders that were coming in. Shooting the Gap was getting noticed.
