

Chapter 1

By the time Kaylee had made the new hats and sweat shirts with the new 'I Shot the Gap and Survived' logo, she and Hayden had ten orders for the new board and many more orders for their Shoot the Gap clothes.

There was also a line-up of new surfers training on their new Shoot the Gap boards, in the hope of shooting the gap themselves.

Hayden now spent a lot of his surfing time training surfers from all over town how to shoot the gap safely.
