

Vicki moved the ladder
next to the window.
She climbed carefully
to the third step.

She was using a heat gun
to clear thick paint
from a window frame.

Vicki climbed down the ladder
and went to look for Sam.

Sam was Vicki's supervisor.
He told her what to do
and taught her about
painting and wallpapering.

They worked for
Robertson's Decorating Company.
They were painting and decorating
the old house together.
