VELS Student Workbook

Year 1

Level 2

## STUDENT WORKBOOK

Sandra Bishop

## Introduction

The work sheets in this book are designed to be used in conjunction with *Science: Teaching and Assessment Resource – Year 1*, but may also be used separately, as you see fit. The work sheets correspond with the activities detailed in the week-by-week lesson plans in *Science: Teaching and Assessment Resource – Year 1*. These lesson plans also list any resources required (most of which can be easily found around the classroom or at home) and list objectives, skills and assessment suggestions. Some lesson plans also include extension activities.

This student workbook encourages active student participation, and helps develop a wide range of skills such as discussing, analysing, hypothesising and cooperating. It also serves as a record of each student's observations and provides an outline of how each student's scientific knowledge has developed.

# Contents

## Earth & Space

What is a Scientist?.....	7
The Weather.....	8
Comparing the Weather.....	9
A Change in the Weather.....	10
The Weather – Sun and Clouds.....	11
The Clouds.....	12
Seasons.....	13
Temperature.....	14
Drawing on Temperature.....	15
Temperature throughout the Day.....	16
Rocks and Soil.....	17
The Earth.....	18

## Living Things

My Family.....	19
Looking at Animals.....	20
Life Cycles.....	21
Butterflies.....	22
Larvae Observation.....	23
The Life Cycle of a Butterfly.....	24
The Life Cycle of a Frog.....	25
How I Have Grown.....	26
Human Changes.....	27
Seeds.....	28
Grass Seeds.....	29
Hairy Harry, Hairy Harriet.....	30
Predicting Harry and Harriet.....	31
Plants.....	32
Plant Cuttings.....	33
Caring for Young: Compare Humans to Kangaroos.....	34
Caring for Young.....	35
Animal Shelters.....	36
Animals and Food.....	37
Hungry Animals.....	38
Gathering Food.....	39
Protection.....	40
Animals and Protection.....	41
Plants and Protection.....	42
Survival and Use.....	43
Survival.....	44
What Living Things Need.....	45
Body Coverings.....	46
Different Coverings.....	47
My Body is Different.....	48
Moving Feet.....	49
Animals Are Different.....	50

<b>Matter</b>	
Substances .....	51
Natural Substances .....	52
Manufactured Substances .....	53
Investigating Properties.....	54
Substances and Objects .....	55
Making Paper .....	56
Comparing Substances: Bouncing Balls .....	57
Packaging .....	58
Testing Sponges .....	59
Soaking It Up.....	60
Sponge Absorption .....	61
Sorting Substances.....	62
Properties .....	63
Changing Substances.....	64
Plaster of Paris.....	65
Making Pikelets .....	66
Puff Paint.....	67
Making New Substances .....	68
Melting Rates.....	69
Melting .....	70
Dissolving: Changing Substances .....	71
Dissolving: Changing Substances by Adding Water .....	72
Dissolving: What We Learnt .....	73
<b>Forces and Motion</b>	
Batteries .....	74
Using Batteries.....	75
Magnets .....	76
Magnetic Patterns .....	77
Picking Up on Magnets .....	78
Watch and Draw .....	79
Move It!.....	80
Floating and Sinking .....	81
Sound .....	82
Instruments .....	83
Sounding Out .....	84
Light .....	85
Peeking through Light.....	86
Light All Around Us .....	87

# The Earth

Th\_Ear\_h is r\_u\_d  
like a b\_ll. It r\_ta\_es  
a\_ticlo\_k wi\_e.

# Plant Cuttings

Place a plant cutting in water. What do you think will happen to the cutting?

---

---

---

---

As you observe something happening, draw what you see and write about it below.
