

Comprehensive Assessment of Reading Strategies (CARS Series) is a reading program that gives you practice with 12 reading strategies. In *Comprehensive Assessment of Reading Strategies, Book 2*, you will complete ten reading lessons. Each lesson has a reading passage and questions about the passage. Each passage is a different writing form. Some of the writing forms are a fable, a short story, a poem and a letter. After you read each passage, you will answer 12 questions. Each question helps you practise a certain reading strategy.

Once you have completed the first five lessons, you will complete a self-assessment. The self-assessment will help you see how well you are doing and what goals you need to set. After you complete the last five lessons, you will complete another self-assessment. This self-assessment will help you see how well you met your goals.

Comprehensive Assessment of Reading Strategies, Book 2 will help you become a better reader. You will understand what important information to look for as you read. This will help you get the most from your reading.

Here is a story Kate wrote about a special zoo. Read the story. Then do Numbers 1 through 12.

I like going to the city zoo. Even though I can't go every day, I don't mind. I can go to my own zoo any time that I want. It's in my backyard. Yes, that's right. I'm not pulling your leg. I really do have my own zoo.

My zoo is full of many interesting animals. There are mice, sparrows and possums. There are also lots of insects. There are bees, ants, butterflies and daddy-long-legs. There are over 30 different kinds of animals in my backyard zoo.

Some days, I watch the sparrows. I love to watch them fly. I also like to watch them clean and straighten their feathers.

The best time to watch the sparrows is in the spring. First, the sparrows build their nests in the trees. Their nests are made of grass and straw and are shaped like cups. Then the sparrows lay eggs in the nests. After the eggs hatch, the baby sparrows learn to fly.

In the winter, the sparrows leave my backyard zoo because it is too cold for them. That's okay. I know they'll be back.

The city zoo is fun to visit. The city zoo has more animals than my backyard zoo. But the animals in my zoo are lucky because they don't have to live in cages. And my zoo is free!
