FOR THE TEACHER

What is *Comprehensive Assessment of Reading Strategies II (CARS Series II)*?

Comprehensive Assessment of Reading Strategies II is a reading series that assesses student proficiency in 12 reading strategies (8 strategies in Book 1), the same strategies that are practised in the *Comprehensive Assessment of Reading Strategies* diagnostic reading series. *Comprehensive Assessment of Reading Strategies II* allows teachers to identify and assess a student's level of mastery with each of the reading strategies. This eight-level program is designed for students in years 1 through 8. *Comprehensive Assessment of Reading Strategies II* is for use after students have been diagnosed with *Comprehensive Assessment of Reading Strategies* and have been instructed with *Strategies to Achieve Reading Success*, or with any other remediation materials.

Book 1 has 20 pages and contains four lessons. Each lesson provides a two-page reading passage and 8 selected-response questions. Each question focuses on a specific reading strategy.

Books 2–8 have 24 pages and contain four lessons. The first lesson provides a three-page reading passage followed by 12 selected-response questions. The second lesson provides 12 selected-response questions, based on the reading passage presented in the first lesson. Be sure to allow students time to reread the passage before answering the questions. The third lesson provides a reading passage followed by 12 selected-response questions. The fourth lesson provides 12 selected-response questions, based on the reading passage presented in the third lesson. Be sure to allow students time to reread the passage before answering the questions. Each question focuses on a specific reading strategy.

In *Comprehensive Assessment of Reading Strategies II, Book 6*, students receive follow-up assessment for the following 12 reading strategies:

- finding main idea
- recalling facts and details
- understanding sequence
- recognising cause and effect
- comparing and contrasting
- making predictions
- finding word meaning in context

- drawing conclusions and making inferences
- distinguishing between fact and opinion
- identifying author's purpose
- interpreting figurative language
- summarising

What is in the student book?

Each student book contains

- four lessons; each lesson is based on a three-page reading passage and includes 12 selected-response questions (two-page reading passage and 8 selected-response questions in Book 1).
- a self-assessment form for students, which they complete after Lesson 4.
- two assessment forms for teachers, which they complete after Lesson 4 has been completed and corrected.
- an Answer Form on which students record their answers.

What is in the teacher guide?

Each teacher guide contains

- suggestions and instructions for using *Comprehensive Assessment of Reading Strategies II* effectively in the classroom.
- Understanding the Strategies, an instructional reproducible for use with students in the classroom.
- reproducibles of the student assessment and the two teacher assessments that appear in the student book.
- a reproducible Class Performance Chart for recording class results.
- a completed Answer Form.

Where do students record their answers?

Students record their answers on the Answer Form on page 21. Ask students to detach the form and fill in the personal-information section. Next to each item number on the Answer Form is an abbreviation that identifies the strategy. Once you have a student's completed Answer Form, total the number of correct responses for each strategy. Then transfer these totals to Teacher Assessment 1 to begin the assessment process.
