

## body machinery

In your group, organise yourselves into a body sculpture to represent people in action. Try these first, then choose your own: football crowd, firefighters, hospital ward, building site, school classroom.

## active punctuation

Choose a series of gestures to accompany speech marks and punctuation. Teach the class the gestures. Read them a section from a story and pause when a punctuation is needed. Now do the gesture before carrying on.

## self-portrait

An artist is going to draw you. Put yourself in your favourite pose and we will see if we can guess what you have chosen and why.
