

thinkit™

a process for rigorous investigation and learning ... a process for the independent discovery of 'it' (base characteristics)

1. Investigate

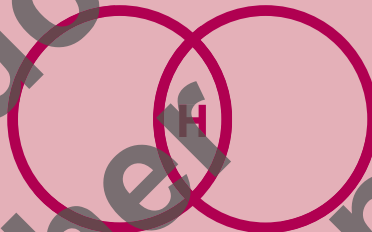

- I can investigate a minimum of two samples

	P	B	E	😊	😞	💡

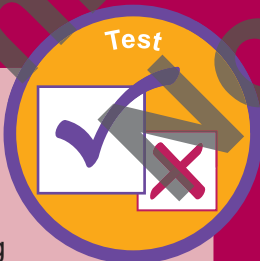

2. Hypothesise

- I can use a Venn diagram to determine my hypothesis of what 'it' is

3. Test

- I can evaluate my hypothesis by investigating further samples

	✗	✓	✓	✓	✓	✓
	✗	✓	✓	✓	✗	✓
	✗	✓	✓	✓	✓	✓

4. Identify 'it'

- I can outline my conclusion based on the characteristics consistent in all samples investigated

it
