

Kit 2: TREC

From The Thinking Tool Kit 2 • HBP126

Think

Get your brain into action.

When working with mathematics, what do we normally do?

Read

Read the question.

If you do not understand it, read it again.

Estimate

Estimate what you believe the answer should be.

Is your estimate similar to your team members'?

Calculate

Carry out the calculations required.

How close is your answer to your estimation?

How do you know that you have the right answer?
