Summary:

This notebook follows the six-step method for teaching academic vocabulary, outlined in the *Building Academic Vocabulary: Teacher's Manual*.

There is space to record more terms, and students can add new information as their understanding of the terms deepens and matures throughout the year.

Plus, teachers have more flexibility to assign each of the five distinct sections of the notebook to a different subject area.

Supply each teacher in your program with the teacher's manual, and each student with this notebook, to implement a comprehensive approach to teaching academic vocabulary.
