Format/Page No.: A5 (148 x 210 mm)
32 pages
Age Group: Professional Development
Topic: Activities & Exercises,
Assessment, Leadership
Learning Area: Cross-curricular

Summary:

This revised Australian edition of *Working inside the Black Box* offers easy-to-read advice for Australian classroom teachers on how to implement the key techniques within formative assessment – questioning, feedback and peer/self assessment.

While other works in the Black Box series have been designed to support assessment for learning, *Working inside the Black Box* takes a more functional slant, offering practical ideas and advice for the improvement of classroom assessment through the key formative assessment methods.

The philosophy of the Black Box series is that formative assessment is considerably more than the sum of a series of handy tips and techniques; rather, it is about creating a learning culture within the classroom that enables the student to become an independent and effective learner.

Supporting Resources:
