**Format:** B5, 90 pages  
**Age Group:** P-12  
**Learning Area:** Cross-curricular  
**Category:** Leadership, Intercultural Understanding

### Summary:

The idea of schoolwide pedagogy (SWP) is a relatively new phenomenon, and here, thanks to researchers at the Leadership Research Institute at the University of Southern Queensland, is a brand-new title to help you understand this exciting teacher-friendly concept better.

Introducing the background of SWP through personal recollections, you'll learn about the specific criterion and principles that characterise SWP, as well as discover how it has been used in research within primary and secondary schools of the the Sydney Catholic Education Office. Along with the two well-documented case studies from two different schools, showing exactly how the concept and ideas of SWP can be applied in a real-life setting, you'll also learn about the more specific ideas behind the schoolwide pedagogy concept.

This book's multiple messages of inspiration and practical pedagogical approaches will serve as motivation for any teacher, principal or school community that wants to revitalise their school outcomes.
