Summary:

Do basic skills have to be boring? Absolutely not! This series uses exciting adventures and delightful characters to help teach fundamental skills and provide a foundation for learning. This book addresses specific content areas; presents tasks that grab the attention and curiosity of students; contains clear directions to the students; asks students to use, remember and practise basic skills; and challenges students to be creative and analytical.

Kids love learning about topics such as galaxies and glaciers, thunderstorms and timelines, and elephants and encyclopedias. *Basic not Boring 3–4* contains hundreds of inventive, ready-to-use lessons that invite students to join an adventure, solve a puzzle, pursue a mystery or tackle a problem. It combines over 300 pages of age-appropriate teaching resources, with integrated activities in the key learning areas of English, maths, society and environment, and science.

Topics areas covered in *Basic Not Boring Years 3–4* include:

- map skills
- measurement
- grammar usage
- writing skills
- problem-solving and more ...

Key selling points:

- respected and experienced authors
- excellent value for money
- a ready-to-use assessment tool: four skills tests across the major learning areas
- complete answer keys for all exercises and skills test
- includes exercises on engaging, eclectic topics such as world travel, circuses, the human body, weather, money and many more.
