RRP: \$24.95
Format/Page No.: B5, 182 pages
Year Level: Teachers and Administrators
Focus Area: Classroom Practice and Direct Instruction, Curriculum, Professional Development

Key Learning Area: Cross-Curricular

Summary

Flipped classroom pioneers Jonathan Bergmann and Aaron Samms take their revolutionary education philosophy to the next level in *Flipped Learning*. Building on the energy of the thousands of educators inspired by the influential book *Flip Your Classroom*, this instalment is all about what happens next – when a classroom is truly student-centred and teachers are free to engage with students on an individual level. The flipped classroom encompasses direct instruction delivered to the individual outside of the class, and more strategic use of in-class time for group work and individualised attention.

This book will take you to the logical next step in the evolution of the flipped classroom – flipped learning – a path toward powerful learning and teaching strategies that can transform learning by engaging each student and taking their learning deeper and further. Flipping, combined with individualised learning strategies, changes everything. *Flipped Learning* is loaded with powerful stories from teachers across curriculum and year levels as well as technology coordinators and professional learning specialists who share how they were able to go deeper into content, let students' curiosity take learning further and develop positive relationships.

Flipped Learning will once again turn your expectations upside-down and fuel your excitement for teaching and learning.
