RRP: \$27.95
Format/Page No.: B5, 98 pages
Year Level: Teachers and Administrators
Focus Area: Classroom Practice and Direct Instruction, Professional Development
Key Learning Area: Cross-Curricular

Summary

Reading is fundamental to learning. *Technology, Reading & Digital Literacy* offers new strategies to inspire and motivate students – even the most reluctant readers. This book gives educators new tactics to help students discover the joys of reading, improve writing and storytelling skills, and expand the use of technology for learning.

Technology, Reading & Digital Literacy shows teachers how to connect traditional teaching strategies with engaging online tools and resources designed to inspire a love of literature in new and reluctant readers. Learn about exciting educational websites that help students find the perfect book, discuss their reading with the class, share a great story with peers around the globe and improve their writing abilities.

Educators will uncover new methods for integrating traditional teaching strategies with engaging technology to tap into students as creators, innovators and out-of-the-box thinkers. The book is filled with a robust collection of literacy tools and resources to support the transition to digital literacy, including

- custom book lists
- virtual book clubs
- video and animated book talks
- writer's wikis.
