| Format | 210 × 297 mm, 366 pages |
| Type | Classroom resource |
| Level | Primary, Secondary |
| Topics | School communities Wellbeing and mental health Leadership |

Summary

If you lead or are involved with a youth group of any kind, this book is a must have! When youth are engaged around a common purpose that holds personal meaning, great things happen. Standing together, youth can create a caring community, develop shared goals, work as a team to overcome challenges and lead the charge to success. As leaders of youth, we can design activities and provide opportunities for young people to develop their potential.

This book is your guide to building a powerful youth group – whether it is a student government, after-school club, sports team or community organisation. You'll find engaging activities to create group identity and ownership, build relationships, brainstorm ideas and make cooperative decisions. Plus, you'll find ideas and activities to help your youth develop leadership skills and take an active role in uniting their school, team, organisation or community. Don't leave anything to chance. Engage and inspire your youth to make a positive difference.
