Type	Classroom resource
Level	Primary
Topics	Mathematics Numeracy

Summary

Quiz-Quiz-Trade is a student favourite! This Kagan Structure turns need-to-know curriculum into a fun and interactive quizzing game. To play, every student receives a quiz card relating to the topic. Students then pair up with a classmate. Using their cards, they quiz each other. After coaching or praising, they trade cards and set off to quiz a new classmate with their new card. The repeated practice boosts retention of the content. Memorising important information and concepts has never been so fun! This book is loaded with card sets on a variety of topics including area and perimeter, balance it, big number challenge, converting fractions, division word problems, equivalent fractions, factor find, multiplication word problems, multiplication and division comparisons, ordering decimals, order of operations, place value, round it and simplifying fractions. Each card set includes enough ready-to-copy cards for your entire class to play.

This book includes:

- over 100 ready-to-use engaging mathematics activities to teach essential skills
- activities that cover perimeter, division and multiplication word problems, decimals, fractions, rounding and factors
- eight step-by-step cooperative learning structures.
