

Quiz-Quiz-Trade

Mathematics Years 6–8 (Level 2)

Michael Smith

Date Available	November 2021
ISBN	9781760943370
Code/SKU	KAN3370
Price	\$35.00
Format	210 × 297 mm, 206 pages
Type	Classroom resource
Level	Secondary
Topics	Mathematics Numeracy Teaching practice

Summary

Does it ever feel impossible to get upper primary and high school students to stop interacting with classmates and focus on maths? So stop trying. Convert that natural impulse to interact into productive maths learning with Quiz-Quiz-Trade. Your students will be up, moving about the classroom, quizzing each other on essential maths skills, and coaching and praising each other. Each set of cards focuses on a need-to-know maths concept. Students each receive a quiz card. They pair up and quiz both ways, then trade cards and find a new partner to quiz. Each time they have a new partner and a new quiz question. Great for practising concepts, test prep and revisiting concepts throughout the year in a fun quizzing format.

Includes quiz card sets on algebraic expressions; fractions, decimals and percents; data analysis; greatest common factor (GFC); integers; lowest common multiple (LCM); order of operations; patterns and relations; patterns and tables; and transformations.

Quiz-Quiz-Trade is a student favourite! This Kagan structure turns need-to-know numeracy curriculum into a fun and interactive quizzing game. The repeated practice boosts retention of the content.
