

Proficiency Scales for English and Mathematics Standards

Author(s): Robert J. Marzano, David C. Yanoski, Jan K. Hoegh & Julia Simms
with Tammy Heflebower & Phil Warrick

Date Available: 15 March 2016
ISBN: 978 1 76001 287 8
Code/SKU: MRL2878
RRP: \$38.95
Format/Page No.: A4, 260 pages
Year Level: F–12, Teachers and Administrators
Focus Area: Assessment, Classroom Practice and Direct Instruction, Curriculum, Professional Development
Key Learning Area: Cross-Curricular, English, Mathematics

Summary

From *The Art & Science of Teaching to High Reliability Schools*, proficiency scales are a core feature of Dr Robert Marzano's internationally acclaimed school improvement frameworks. Because the generic form of a proficiency scale is comparable across teachers, across topics, across subject areas and across year levels, it allows teachers to compile summative scores for specific topics and increases the reliability of test design and scoring.

Whether you are actively engaged in implementing a Marzano Institute initiative in your school or simply need guidance when it comes to measuring student learning, *Proficiency Scales for English and Mathematics Standards* can help. Designed to supplement your existing practice, it contains over 110 proficiency scales that will bring new rigour and focus to your teaching and assessment practice, as well as aid in creating unique proficiency scales for the Australian Curriculum. Every Marzano proficiency scale is based on a four-point rating system at each level, with 11 hierarchical stages for each measurement topic. The book presents a comprehensive set of scales for both English and mathematics, across a range of learning areas including:

English

- Reading
- Reading Fundamentals
- Writing
- Speaking and Listening
- Language

Mathematics

- Number and Quantity
- Operations and Algebra
- Functions
- Geometry
- Measurement, Data, Statistics and Probability
