Key Learning Area: Science, English

Summary

If you know children who say “Yuck!” when they spot a spider, this irresistible book will make them say “Ooh!” instead. *Next Time You See a Spider Web* describes how these small, skilful creatures weave some of nature’s most clever traps – their webs.

Author Emily Morgan shows how spiders snare their prey with tangled webs, funnel-webs and intricate orb webs. The book tells how spiders spin sticky silk without getting stuck themselves and it reveals the surprising tricks of the jumping spider, fishing spider and trap-door spider. *Next Time You See a Spider Web* is a book that children and adults alike will want to take along on their next nature walk.

Awaken a sense of wonder in a child with the *Next Time You See* series. The books will inspire primary-age children to experience the enchantment of everyday phenomena such as spider webs, the Moon, maple seeds, slaters, sunsets, seashells and fireflies.

Especially designed to be experienced with an adult – whether a parent, teacher or friend – *Next Time You See* books serve as a reminder that you don’t have to look far to find something remarkable in nature.
