

Real-World Learning Framework For Elementary Schools: Digital Tools and Practical Strategies for Successful Implementation

Author(s): Marge Maxwell, Rebecca Stobaugh, Janet Lynne Tassell

Date Available: July 2017
ISBN: 9781760563820
Code/SKU: SOT3820
RRP: \$49.95
Format/Page No.: A4, 340 pages
Year Level: Teachers and Administrators
Focus Area: Activities and Exercises,
Classroom Practice and Direct
Instruction
Key Learning Area: Cross-Curricular

Summary

In *Real-World Learning Framework for Elementary Schools: Digital Tools and Practical Strategies for Successful Implementation*, Marge Maxwell, Rebecca Stobaugh, and Janet Lynne Tassell remind educators that, in order to foster authentic learning in the classroom, they must plan and support relevant learning experiences that allow students to exert creativity. The authors outline the Create Excellence Framework, which supports cognitive complexity, student engagement, and technology integration through real-world, project-based instruction in grades K-5. This framework fosters deeper and self-directed learning and helps students find greater fulfilment in their learning, while also meeting the guidelines of curriculum standards.

K-5 teachers, administrators, and curriculum coordinators will:

- Learn the components of the research-based Create Excellence Framework for lesson planning and how each connects to student content standards
- Discover the five levels of real-world learning
- Answer questions to consider in setting up the Create Excellence Framework for real-world learning
- Consult real-world examples of Create Excellence Framework-applicable learning projects
- Learn about many online tools and resources to promote online projects that engage students
